General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Dear Editor Here is the Report.</p> <p>In my opinion, the topic is of interest. However, the current version still needs improvement.</p> <p>Besides, in order to expedite the processing of the revised manuscript, the authors had better provide a detailed point-by-point response letter and all the changes have been highlighted in some color in the new revised version. Finally, I suggest a major revision and my comments are as follows:</p> <p>The abstract section should be rewritten to be more concise. General information should not be given in the abstract section; brief information should be given about the purpose, methodology and results of the study.2. The figure quality needs to be improved.3. Grammatical errors should be corrected and English level should be improved.4. The novelty of the study should be emphasized in the last paragraph of the Introduction section.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
