PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> In 2.3, the statistic given by the researcher looks more than the study sample rather than population of the study. If this is the population of the study, then this section has to be rephrased. Using study sample for pilot-testing or determining the reliability of an instrument is not an ideal practice. This will result in test wiseness or other extraneous variables. 	
Minor REVISION comments	<ol style="list-style-type: none"> Edit the text in Figure 1. Check punctuations in the work and place them accordingly. 	
Optional/General comments	The article is good
