PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This is an interesting paper. But needs some strengthening of the rationale and some more referencing to the presently existing models of teaching. I have indicated some comments in the text, but definitely Introduction and Discussion both need to be elaborated on. Especially authors conclusions seem to have little support in the Discussion part. Please provide broader educational context for your arguments and look at other teaching areas and more up-to-date teaching/learning circumstances.	
Optional/General comments
