

Review Form 1.6

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_78271
Title of the Manuscript:	Potable Water Accessibility in the Slums of Douala IV Municipality, Cameroon
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljgeesi.com/index.php/JGEESI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> The study is about water accessibility, which is topical and living issue, therefore, author(s) must expand the introduction section to include recent studies. The methodology section is too scanty. The author(s) need to: <ol style="list-style-type: none"> explain why 8 neighbourhoods were selected out of 12 in the study area state how quadrants were formed for the study describe how Figures 2 to 5 were derived The author(s) should describe how Figures 2 to 5 were derived (this should be under methods). 	
Minor REVISION comments	<ol style="list-style-type: none"> The coordinates and border lines in Figures 3 to 5 may not be necessary, the study area map is detailed and sufficient enough for geo-referencing. The author(s) may consider the use of more rigorous statistical analysis such as concentration index 	
Optional/General comments	<ol style="list-style-type: none"> There is the need for language editing.
