

Review Form 1.6

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_88535
Title of the Manuscript:	Public Perception of Climate Change awareness in Akinyele Local Government Area, Oyo State, Nigeria
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalgeesi.com/index.php/JGEESI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a very generic study of regional awareness in a particular area of Nigeria. It would be good to know if there are any specific regional differences in global warming perceptions for the population sampled in this specific area as opposed to any other geographic area of Africa or other geographic regions. This begs the question- what have we learned from this study that is a contribution to perception of climate change regarding this specific region or what adds to our knowledge base in general?	
Minor REVISION comments	There are spacing problems throughout the manuscript. When citations are made -in many cases the authors name should appear before the reference [#]. The type of font changes throughout the different sections of the manuscript- they should be the same. For Figure 1 – more description is needed, e.g., country, state, and city location	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
