

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_79714
Title of the Manuscript:	ISOLATION AND CHARECTERIZATION OF PHYTOCONSTITUENTS FROM ANNONA RETICULATA L. LEAF EXTRACTS
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The work is of interest in the search for new sources of non-synthetic products for the control of important neurological diseases and of any other nature. However, I consider that the work is very preliminary, therefore, it should be considered for publication as a scientific note or report rather than a scientific article.	
Minor REVISION comments	Review the writing in detail throughout the writing to correctly locate the points, commas, capital letters, etc. Some remarks in this regard are indicated in the manuscript.	
Optional/General comments	The work is preliminary, since only what was considered to contain plant extracts, in this case the Custard apple, was corroborated. The conclusions do not make inference to considerations of greater importance such as transcending on a larger scale to obtain a higher concentration of the products obtained and their use at a commercial level.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
