Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>Materials and methods - the technical standards of the methods are adequate and reproducible. Results are controlled, relevant and current. In the discussion chapter, the authors cite and compare their own results with the data from the specialized literature but ... (please see my comments and suggestions below). The conclusions are relevant, supported by the data presented.</p> <p>In Discussion phrase "Present patient initially received furosemide, digoxin, angiotensin converting enzyme inhibitors for management of DCM which is as per guidelines suggested by many studies 7,8,10,11,12,13". presents erroneous citations. Examples 8-13 (unrelated to Dilated cardiomyopathy – DCM or its treatment). I propose to the authors to give up the respective citations and bibliographic titles.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
