Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The problem is clearly stated and significant. Conclusions are substantiated by the evidence presented. References are very good. Originality is good. No plagiarism was found. Material and Methods used in the study scientifically valid and technically are correct. The procedures are clearly presented. The statistical analysis is complete, the author describes in a correct way the found result. The results and data gathered in the study are presented in a clear and logical method. The discussion is concisely stated. It develops arguments and theories from evidence. In my opinion the article should be accepted.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
