### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Particular comments were put in the text in appropriate places. Basically Discussion and Conclusion don't cover expectation from this specific blocks. Discussion is mostly about other studies results but is not related to the present research, Conclusion looks like it is taken from another study. Many comments on intervention details.	
<b>Minor</b> REVISION comments	Add specific details on study design and inclusion/exclusion criteria.	
<b>Optional/General</b> comments	Good introduction and review part of discussion, very little details and analysis specifically related to present research.	

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
