

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_71059
Title of the Manuscript:	DIABETES MELLITUS: WORST COMORBIDITY TO HAVE IN COVID-19 PANDEMIC
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Thank you for focusing light of such a big dilemma during the novel pandemic COVID-19.</p> <p>After reading the paper, it is suggested to be listened under the title "Minireview paper" rather than (Review article), because of the following points:</p> <ol style="list-style-type: none"> 1. Length of paper is 4316 words which is less than the minimum requirement of Review article (5000 word). 2. Number of references is 35. It is also less that requirement of Review article (50) 3. It does not discuss results of other studies. 	
Minor REVISION comments	<p>The word (worse) is suggested to be replaced by (one of the worse) since the paper does not compare DIABETES MELLITUS with other comorbidities in COVID-19.</p> <p>The subtitle "Conclusion" within the abstract and the text is advised to be "recommendation" instead.</p>	
Optional/General comments		

Review Form 1.6
