PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>(1) (a) ABSTRACT: Please, replace "COVID 19" with "the COVID-19 pandemic" or "COVID-19 infection" (please replace "COVID" and "COVID 19" with "COVID-19" throughout the whole paper)</p> <p>(b) the same comment for the title of the paper: "Coping with COVID anxiety" has to be "Coping with anxiety due to the COVID-19 pandemic" or "How to cope with anxiety due to the COVID-19 pandemic?"</p> <p>(2) Please, expand on your description of (C) migrant workers, (E) businessmen, (H), economy, and (I) fear of vaccination (in addition, correct the letter in brackets in front of "fear of vaccination – instead of (H) it has to be (I)).</p> <p>(3) (a) The section entitled "4 Conclusion and tips to deal with COVID anxiety" has to be just "4 Conclusion" (because you provided some tips to deal with anxiety due to the COVID-19 pandemic before the Conclusion section.</p> <p>(b) Where does the part "Some tips to deal with COVID anxiety are as follows" belong to? To the third (3) or fourth (4) section of the paper?</p> <p>(4) I want to encourage you to enrich the paper with more references and explanations, a much more discussion and analysis. Four pages may be enough for a very good article in popular magazines; however, a review paper should be much longer (if you could make it at least twice as long as it is currently, of course, by adding relevant contents of a good quality, it would significantly increase its scientific value).</p>	
Minor REVISION comments	<p>(1) The heading/section "Reference" has to be "References".</p> <p>(2) "3 symptoms that indicate you are facing COVID anxiety" has to be "3 Symptoms indicating you are facing anxiety due to the COVID-19 pandemic"</p>	
Optional/General comments	I think that the actual letter font of the paper has to be changed.	

PART 2:
