Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This study explores both Physical and Psychological stressors, so I suggest that the topic should be "PSYCHOLOGICAL AND PHYSICAL PROBLEMS IN GERIATRIC POPULATION IN A RURAL AREA."</p> <p>Please elaborate on sample size calculation. Mention the sample size formula for calculation of sample size.</p> <p>In study design you have mentioned random sampling which is a sampling technique. Study design should be cross sectional descriptive study.</p> <p>Mention reference for the questionnaire from previous study.</p> <p>Elaborate on the data collection methodology, interview settings, mention the author who collected the data, list the data collection tools, the software used for data entry (excel, SPSS?), statistical tool used for data analysis.</p> <p>There are a lot of grammatical flaws and language errors that need to be addressed.</p> <p>There is too much generalization of conclusion and recommendations. The conclusion and recommendations should be concise and precise. Focus and re-write the conclusion and recommendation section based upon the findings of your study.</p> <p>Mention the limitations of this study.</p> <p>Please mention how mean scores for physical and psychological stressors were calculated. What is the significance of those mean value? Elaborate mean values in discussion section.</p> <p>References need to be corrected, follow Journal style for referencing.</p>	
Minor REVISION comments	<p>Omit 'general questions' from study variables.</p> <p>Data has been presented only in tabular form, use graphs and charts as well for few variables.</p>	
Optional/General comments
