PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction section is too long; author(s) is or are advised to trim down this section. Statement of problem, research questions and hypotheses in line with the specific objectives of the study are required in this study to make the study colourful.</p> <p>There should be a heading for Research Methods or Materials and Method and also sub headings. It is very important you arrange your study where the study design and duration, site of study, study population and sample sizes...are included</p> <p>Do you mean Descriptive survey study design for observational study? Use of questionnaire drawn from your research questions with 4 Likert scale is very important in carrying out this study.</p> <p>How did you validate your data? How reliable is your data? It is important you include tables of data collected before the discussion and conclusion of the study</p>	
Minor REVISION comments	<p>Correct some grammatical and typographical errors. Some authors or study not cited in the body of the work were included in the reference section. Kindly revisit the reference section using authors' guideline to prepare your manuscript.</p>	
Optional/General comments	<p>The title of the manuscript is interesting, however the manuscript needs to be presented in a more logical order.</p>
