<b>Compulsory</b> REVISION comments	<p>This is a very timely article. I just have a few comments:</p> <ol style="list-style-type: none"><li>1. There are many claims and counter-claims in this article. Can you show us some statistical evidence to back up your arguments?</li><li>2. Can you give us some claims that are under investigations at the moment, ie, these arguments cannot be declared true or false just yet?</li><li>3. Can you suggest some strict measures that you mentioned in the conclusions that authorities should come up with?</li><li>4. I think this article is more suited for a newspaper op-ed column, not in a scientific journal that requires some scientific methodologies and proper data analysis</li></ol>
