PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The researchers should add the background or rationale of the study instead of these hypothetical sentences/ words from secondary sources. 2. Data collection tool is not clear. 3. The Introduction lacks sufficient literature to prove the rationale of the study 4. In Introduction The researchers should focus on the statement of the problem from world, regional and local perspective respectively 5. the unit of analysis and population of the study is not specified 6. Reason of selecting study area is vague. 7. The name of the country of the study area must be added in the study along with the title. 8. The conclusion lacks findings of the study 9. Edit the tables as recommended in the text 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Check the grammatical mistakes 2. The authors must rephrase the paragraphs of Introduction section. 3. Rethink about study design and data collection tool 4. Add population of the study before sample selection 5. The procedure of selecting sample is not mentioned here e.g. purposive sampling or simple Random sampling 6. The researchers should add specific date, month and year of data collection 7. Check the whole paper and try to correct according to the suggestions
