PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>It's a good paper that contributes to health research, however, some aspects should be improved in order to be published:</p> <ol style="list-style-type: none">1. The methodology is insufficient. It doesn't comprise the time that the study was carried out. This section should answer the elements as follows: who, what, when, where, how, and why, in order to be a successful methods section.2. The conclusion is too short. This section should summarize the main results of the study. The final section of the paper should be solid, strong, and convincing, it provides several important opportunities to demonstrate the overall understanding of the research problem to the reader.	
Minor REVISION comments		
Optional/General comments
