

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_74457
Title of the Manuscript:	ANTICANCER ACTIVITY OF AEGLE MARMELOS ON HUMAN HEPG2 CELLS BY REGULATION OF MATRIX METALLOPROTEINASES EXPRESSION
Type of the Article	Original article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">One of the major causes of hepatocellular cancer is chronic hepatitis B viral infection. No antiviral activity has been shown in methodology.	
Minor REVISION comments	<ul style="list-style-type: none">In conclusion, it has been mentioned that Aegle marmelos drug inhibited the proliferative action of liver cancer cells by reducing the expression of MMP 2 and MMP 9 which inhibits the metastasis of cancer cells. But metastasis occurs in advanced cancer. This means that Aegle marmelos prevent only advanced stages, not early stages. Then how it effective in chemoprevention of cancer ?	
Optional/General comments	<ul style="list-style-type: none">As similar in vitro anticancer activity has been already evaluated. (Reference no 11 & 12)	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
