

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_74581
Title of the Manuscript:	Physicochemical properties of paracetamol tablets formulated using sucrose and formaldehyde cross-linked starches from maize, wheat and rice
Type of the Article	

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. As the authors of manuscript has used different concentrations of formaldehyde for cross linking of starch, hence what is the permissible limits of formaldehyde for Oral use? As tablets were administered orally.</li><li>2. As Formaldehyde is organic cross-linking agent, Residual Solvent Content should be measured for it. Kindly present residual solvent content studies.</li><li>3. In Table 1, n=3 and Table 2, n=5 should be mentioned.</li><li>4. Figure 1 is mentioned repeatedly.</li></ol>	
<b>Minor</b> REVISION comments	No Comments	
<b>Optional/General</b> comments	No comments	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
