PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is well written. The title is appropriate for the content of the article. The abstract is concise and accurately summarizes the essential information of the paper. The introduction section provides useful information for the readers. Objectives of the study are clear and good. This study wants to study the effect of smoking, alcohol and substance abuse on human among students based on knowledge, attitude and practice. That good effort.	
Minor REVISION comments	<p>Methods</p> <ol style="list-style-type: none"> 1. Please specify the study design of your study. Usually using cross sectional study design. 2. Please specify the sampling method used in this study. Usually using convenience or quota sampling. 3. What is sample size calculation used in this study? Is single proportion or two proportion? 4. How did the authors determine the Inclusion/exclusion criteria? 5. What statistical analysis was used in this study? The author states using parametric and non -parametric analysis but in the results obtained it involves only frequency analysis. Please correct this error. 6. Suggestion for author is please provide validity (KMO test) and reliability analysis (Cronbach's alpha) to measure the accuracy and consistency of research instruments (questionnaires). 	
Optional/General comments	<p>Discussion and Conclusion</p> <p>The discussion and conclusion are well written, and presentation is good. Here author should declare his/her competing interest. If nothing to declare he/she can write "I declare that I have no competing interest".</p> <p>Please stated the acknowledgment in this paper.</p>
