PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>Dear Editor,</p> <p>I carefully read the manuscript 'Prevention and nursing management for central line associated blood stream infection'. My opinions are below;</p> <ol style="list-style-type: none"> 1- The presentation plan of the article is good, the language of the writing is good. 2- I enjoyed reading and examining the article on hospital infections, which is a very important issue in the nursing approach. The authors presented the importance of bloodstream infection in an appropriate and beautiful language. They also emphasized the importance of risk factors and bundle applications in the nursing approach. Except for a few word mistakes, I think that the article is acceptable due to its beautiful and scientific nature. <p>Kind regards,</p>
