Type of the Article	

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Incidence cannot be calculated by retrospective study done by the author.</p> <p>The study design is retrospective cross-sectional with one time data collection from records over a period from 2018 to 2020. Author has not written the data collection technique. It seems that data of USG findings and laboratory results were also obtained from the records, if so then it is not possible to notice by investigator the USG machine details and lab investigation machine details, along with there may be intra-observer variation.</p> <p>The statement of ethics should be included in the last paragraph of methodology section.</p> <p>No continuous data analysed by the investigator, so plz omit students t test from statistical analysis section</p> <p>The conclusion do not match with the objective and findings of the study.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**Review Form 1.6**
