

Review Form 1.6

| | |
|--------------------------|--|
| Journal Name: | Journal of Pharmaceutical Research International |
| Manuscript Number: | Ms_JPRI_75515 |
| Title of the Manuscript: | A survey of physicians' opinion and treatment preferences regarding febrile seizures in children |
| Type of the Article | |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>authors mentioned in the method section of the study that had only 160 response (out of 400) and 30 were incomplete and 40 were unanswered that were not included in the study so the available responses must be 90 only</p> <p>-please revise first line in results section (author said n=160)</p> <p>- the method section of the abstract (authors said n=600)</p> | |
| Minor REVISION comments | <ul style="list-style-type: none"> • In Abstract: The last sentence of background is repeated in objectives (must be removed) • the number of both Primary care physicians, as well as paediatricians was not illustrated in the study • why authors represent gender only from all demographic data? It is better to represent all demographic data in a table • please see the revised version for other minor points | |
| Optional/General comments | <p>The manuscript is well-written and explains the research clearly</p> | |

Review Form 1.6

PART 2:
