PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Medicinal changes—it is not a western drug; it is natural herbal remedies. Also need more details about how to prepare those herbs and how long does the patient used. 2. Manual therapies—no details about massage, how often the patient received treatment, what techniques and where to do the massage. Why did warm cupping on shoulders only? 3. Add a possible explanation on your method. Since it is combination, which one play more important role? 	
Minor REVISION comments	It would be nice to see more cases to support the effectiveness.	
Optional/General comments
