PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I read manuscript titled "Incidence of POUR in patients having undergone elective spinal surgery" and I think that, although it isn't a novel topic about this field, it might be of interest for the readers that they have to deal with problems inherent in the complications of surgical therapy at the level of the spinal cord.</p> <p>However, before considering this paper worthy of being published in the "Journal of Pharmaceutical Research International", I suggest a careful analysis of English and expressions, which, in my opinion, can and must be improved.</p>	
Minor REVISION comments	English revision	
Optional/General comments
