### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Introduction section</b></p> <p>Only one article is cited in the introduction (cite articles used,). even cited articles are place wrongly. Try to review articles exhaustively and cite them. There are words that are not familiar for scholars, "paalada" try to describe it The author is better to mention the strength and limitation of the study</p>	
<b>Minor</b> REVISION comments	<p><b>Title:</b> Prevalence and effectiveness of various feeding practices among children with cleft lip/palate prevalent in southern India</p> <p><b>Abstract section</b></p> <p>Result is too short and not well summarize the findings</p> <p><b>Result section</b></p> <p>Table heading should be placed above the table and be self- explanatory Should be cited in the text, none is cited.</p> <p><b>Language</b></p> <p>Try to make grammatical edition (spelling, tense...) for the whole document</p>	
<b>Optional/General</b> comments	<p>This is an interesting study aimed" to assess prevalence of various feeding techniques used for children with cleft lip/palate prevalent in southern India and to assess their effectiveness in improving energy intake and growth of children with cleft lip/palate". However, points pointed under "major and minor revision comments" should be amended appropriately.</p>
