PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>When COVID had affected the entire globe, why was the sample size so small? Based on what previous record, is the sample calculated? Also, why convenient sampling method is used? Ideally, I feel the sampling method should have random to both geographical and age.</p> <p>Stress is also calculated only with the 100 samples and not compared with population who does not have access to social media</p>	
Minor REVISION comments	At many places including the abstract there are multiple statements without proper spacing. Kindly look into it	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
