PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction is looking big contains all references ,better to add at discussion. In discussion add and compare other similar studies. Mention briefly on child to child approaches ,as that is the main theme of your study. Methodology better to put in one heading and write under single heading. Why females having strong association because of strength r bcz of previous exposure.bias? How you planed to decrease the bias/ Explain briefly tables with good headings % +/- for SD etc,belowthe tables explain the short forms. Type of study better to mention in heading. If possible attach the question paper in supplement files One table has no heading. Explain which statistical method used for which parameters ,T value</p>	
Minor REVISION comments	Language flow	
Optional/General comments
