Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>This case is important to publish, however, it requires a more referenced base.</p> <ul style="list-style-type: none"> • The title includes allergy, but the case presented is not an allergy; However, it is possible to explain how Siddah treatment can act on allergies. Explain it both on: introduction and in discussion. • It is convenient to broaden the discussion on some aspects, for example: <ol style="list-style-type: none"> 1. Why can't the reported case be a false negative or positive? 2. Recovery of smell and taste was faster than the reported average. <p>Suggested investigations.</p> <ul style="list-style-type: none"> -Vaccine allergy: evidence to consider for COVID-19 vaccines.
