Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Materials and methods used in the study need to be properly highlighted in a different section. For eg: Case study has been taken as the method of the study, which needs to be shown with clarity Outcome and discussion should be more elaborate and backed with relevant research studies and referencing papers to validate the results of the study Limitations of the study needs to be clearly addressed The reference section should follow a definite referencing style	
Minor REVISION comments	The English errors need to be edited by a native English academic writer	
Optional/General comments	Substantial data backup is essential, only a single case study needs to be substantiated with more relevant facts	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
