

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_76792
Title of the Manuscript:	Effect of Pulsed Electro-Magnetic Field (PEMF) Therapy and Conventional Physiotherapy on Lipid Profile- A Randomised Control Trial
Type of the Article	Study Protocol

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>When reading the whole study Protocol I found some issues detailed below -</p> <p>Title: Assessment of effectiveness of Pulsed Electro-Magnetic Field (PEMF) Therapy and Conventional Physiotherapy on Lipid Profile- A Randomized Control Trial.</p> <p>Instead of Effect of Pulsed Electro-Magnetic Field (PEMF) Therapy and Conventional Physiotherapy on Lipid Profile- A Randomised Control Trial</p> <p>1. In abstract:</p> <p>Methodology:</p> <p>a. A total of 40samples will be selected for the study. Total samples are divided into two groups comprising of 20 samples in Group-A and 20 in Group- B. Group-A will receive Pulsed electro-magnetic field (PEMF) therapy with aerobic and resistance exercises while Group-B will receive aerobic and resistance training exercises as conventional physiotherapy technique.</p> <p>2. Introduction:</p> <p>a. In second paragraph should be supported by some researchers. b. In third paragraph insert (PEMF) after pulsed Electromagnetic field. Write full form PEMF. c. CII, rewrite it as cell.</p> <p>3. METHODOLOGY</p> <p>a. Rewrite the sentence in STUDY DESIGN AND SAMPLE SIZE b. Instead of PARTICIPANTS use the word Selection of sample. c. Use Selection Procedure instead of RECRUITMENT PROCEDURE. d. Use Timeline of the Study instead of PARTICIPANT TIMELINE e. In Study Procedure of the first paragraph Who fulfil the inclusion criteria will be selected for the study instead of who satisfies the inclusion and exclusion criteria will be included in the study. In second paragraph rewrite it as two Groups that is Group –A and Group-B. Instead of Group 1 and Group 2 write it as Group-A and Group-B. Rewrite the sentence Post 30 minutes of PEMF patient will be given aerobic training initially and aerobic plus resistance training post 1 week. Is not clear.</p> <p>f. In STATISTICAL ANALYSIS: Mention the name of statistical test which will be applied.</p>	

Review Form 1.6

<p>Minor REVISION comments</p>	<p>1. STUDY PROCEDURE:</p> <p>a. OUTCOME MEASURES : Instead of OUTCOME MEASURES can be used as Tool used for measuring/collecting the data.</p> <p>b. PRIMARY OUTCOME MEASURE: Instead of this can be used as Tool Used for Measuring Primary Data.</p> <p>c. SECONDARY OUTCOME MEASURE: Instead of this can be used as Tool Used for Measuring Secondary Data.</p> <p>1. DISCUSSION: - In second paragraph rewrite it asThe researcher try to assess the effective of pulsed electromagnetic field</p> <p>Instead of we will be checking the effect of PEMF.</p> <p>2. References:</p> <ul style="list-style-type: none"> Follow the reference from standard Journals. 	
<p>Optional/General comments</p>	<ul style="list-style-type: none"> Protocol can be used after incorporation of changes. Total number of sample can be increased. 	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
