Compulsory REVISION comments	<ul style="list-style-type: none"> - Very clarifying summary, but the procedure adopted in therapy was missing. - Short introduction with few citations, mainly in relation to therapy applied by other authors. - I did not observe in the discussion the applied therapy and the debate of this therapy with others mentioned by other authors. - In conclusion, I think it should highlight more about the therapy applied in the clinical case. - If you have more citations in the literature on the subject, I advise you to increase the number of articles.
