### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Some points deserve to be clarified before publication. I recommend the publication with very minor revisions as follows:            Abstract successfully reports the principle of the work. The number of keywords should be reduced. The introduction is well-written and the area of the work is effectively discussed. The number of references is insignificant and the majority of them are outdated. Kindly compare the case with similar cases to show the importance of the study.</p> <p><b>General comments:</b>            Pneumonia and respiratory infections are an important consideration in individuals....            Pneumonia and respiratory infections are important considerations in individuals. with a history of fever, cough and cold for 6 days.... with a history of fever, cough, and cold for 6 days.            The patient heart rate was 140/min, respiration 74/min and saturation 90%.... The patient heart rate was 140/min, respiration 74/min, and saturation 90%.            brain is associated with a reduction in neuronal number and abnormal neuronal differentiation.... brain is associated with a reduction in the neuronal number and abnormal neuronal differentiation.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
