### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>First of all, the topic is very interesting due to the Covid - 19 pandemic.</p> <p>However, I would like to make some remarks:</p> <ol style="list-style-type: none"><li>1. The word "A Review" must be removed from the title of the manuscript.</li><li>2. I think the Abstract looks more like an introduction and also the word "Introduction" is not needed.</li><li>3. The Abstract should be more comprehensive (up to 100 words).</li><li>4. I think one or two recent references about the Covid - 19 pandemic and its impact on nurses' problems due to flexible working conditions should be included.</li></ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1. The manuscript must be formatted without section headings in the body of the text.</li><li>2. The required parts (Introduction, Materials and Methods, Results and Discussion), must be given in one section.</li><li>3. Only bibliographic references should be given as a separate section.</li></ol>	
<b>Optional/General</b> comments
