PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article does not say how many people with COVID 19 are currently in Saudi Arabia. It must be said whether vaccination against COVID 19 is carried out in Saudi Arabia and what percentage of the population is vaccinated. I studied the issue of vaccination in Saudi Arabia, as of 03.11.2021, 63% of the population in Saudi Arabia was fully vaccinated.	
Minor REVISION comments	-	
Optional/General comments	In their work, the authors do not indicate how the number of cases has changed recently as a result of the application of protection measures against the disease (vaccination, wearing masks, quarantine, etc.). Such information in the article, in my opinion, will motivate people.	

PART 2:
