PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It is a descriptive type-article with simple statistics depicting the incidence of renal involvement in SLE patients. There are no data about the prevalence of LES in Pakistan nor about the diagnostic criteria according to local Rheumatological or Nephrological guidelines or EULAR b2019 guidelines. It should be mentioned also the weaknesses of the article: short number of patients, few statistical data, lack of byopsies- possible due to local technical difficulties.	
Minor REVISION comments		
Optional/General comments		

PART 2:
