PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1- The research article is not fitting in general journal's areas of research</p> <p>2- The introduction part lacks the fluency of information (background, statement of problem, solution and literatures survey)</p> <p>3- Grammar errors found in some parts of the manuscript, ex. Line 33, 63, 66,... etc</p> <p>4- Methodology part is missing age groups divisions</p> <p>5- In context references are not meeting journal's outline of referencing</p> <p>6- No proper explanation of the results section, Tables are the starters for the results without context</p> <p>7- There is not enough literatures in the discussion part to proof the results of age and gender are insignificant for football players' IL6 levels</p>	
Minor REVISION comments	<p>2- Emitting the procedure details for estimating IL6 levels in the blood of subjects</p> <p>3- Replacing some of the references with recently published ones</p>	
Optional/General comments
