### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	It's an excellent paper, with an interesting subject, that contributes to health research. My observation: the tables don't contain sources. The source of the table should be indicated under the table, even if the author is the same person who wrote the paper.  Besides, ethical issues are absent in this manuscript in the paper.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>  All research involving human subjects requires ethics approval by an ethics review committee, therefore, the paper should present the approval in order to be published.
