PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | None | |
| Minor REVISION comments | <ul style="list-style-type: none"> ■ How did the group come up with the Vit D dose to supplement? ■ How would the authors explain or postulate opposite results in other studies, and how would they advocate for their results to be more accurate or representative than the conflicting studies. ■ Would the authors be able to hypothesize why some were non-responders to supplementation? | |
| Optional/General comments | Well-designed study. Study size is good. Well written. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
