PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I do not see coherence between introduction, materials and methods, results and discussion. This is the purpose: to consider the relationship between the current economic situation and the rate of development of the coronavirus infection, which has had a direct impact on various areas of society.</p> <p>This says in materials and methods: in the process of writing this study, a large amount of literature on the problem under consideration was analyzed and analytical and comparative methods were also applied. (but not evidenced).</p>	
Minor REVISION comments	<p>It is a topic of current interest and interest, especially what is currently happening with COVID-19 and how it influences various areas and especially the issue of vaccines and the fact that some people want to be vaccinated and others do not. But the writing is not clear as to what is intended and there is a mixture of a lot of information, without a clear common thread. They can improve it.</p>
