PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	After looking at the first table, I see that most of your respondents, 90% or more, are from the province Sindh. Does it have anything to do with the administration of vaccines there or because there are a lot of respondents from here. Please explain.	
Minor REVISION comments	in the research you are doing Is there a special vaccine that you provide socialization to the public regarding its benefits and functions because we all know that so far there are various types of vaccines with various kinds of side effects. Are you more specific about one type of vaccine or do you see the vaccine in detail?	
Optional/General comments	Have you previously carried out socialization related to vaccines before you did this research so that almost 50% of the people were willing to be vaccinated or did the awareness of the community itself want to receive the vaccine? Please explain
