PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | This article has been written only focusing on the awareness of EMS from the public. The author has analyzed their questionnaires according to the need of EMS. From my point of view, EMS has been viewed only at their physical complications when they are affected by myocardial infarctions. I suggest that the author explore to give awareness about myocardial infarctions. According to that in which kind of food items has to be taken, if it will not consume what is the consequence which will affect us and also if the author could explain and explore about the symptoms of myocardial infarctions means it could be better. I simply insist the authors give not only awareness about all the issues also for doing the First-aid before calling EMS according to the myocardial infarctions. If author improves the given comments, it will be more validate to this article. | |
| Minor REVISION comments | | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
