

## Review Form 1.6

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	Ms_JPRI_77521
Title of the Manuscript:	Maternal Serum 25-hydroxy Vitamin D Concentrations and Calcium Levels in Preeclamptic Women, Sindh, Pakistan
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

**Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ul style="list-style-type: none"> <li>• Write the summary of main contribution in the rest of the Introduction Section;</li> <li>• You must check the consistency between the numbers assigned in the manuscript and those assigned to the references in the references section (For example: in the last paragraph of the Discussion section, you assigned the number (22) to Udenze IC and co-workers (22), while in the Reference section you assigned the number (21). Also, reference 23 does not exist in the References section).</li> <li>• You must mention the reference number of the ethics committee approval</li> <li>• Add the limitation at the end of your Discussion;</li> </ul>	
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"> <li>• At the end of the introduction section, we see that there is a redundancy in the formulation of the objective of the study. To delete one of the two objectives.</li> </ul>	
<b>Optional/General</b> comments	<ul style="list-style-type: none"> <li>• It is a pertinent theme and is of interest to health professionals in general, but it is poor in terms of data and results;</li> <li>• The double spacing must be respected in the manuscript;</li> <li>• The reference number must be put before the point (for the whole manuscript);</li> <li>• Pay attention to spelling and typing errors, for example:               <ul style="list-style-type: none"> <li>○ <b>Staticial</b> Analysis Procedure:</li> <li>○ Fondjo LA et al.,16found that pre-eclampsia is commonly occurred in low gestational age group as compared to normotensive group with <b>hifher</b> gestational age with (p &lt;0.001).</li> </ul> </li> <li>• Add the Acknowledgements, Competing Interests, Authors' Contributions, Consent (where applicable), Ethical approval (where applicable);</li> <li>• Add the abbreviation list;</li> <li>• Add the limitations of the study;</li> </ul>
