PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>I Have many concerns about the content of the manuscript . There are several areas in the manuscript that needs improvement. I think if the author wish this paper to be considered by experts more attention should be focussed on the following points.</p> <ol style="list-style-type: none">1.Sample size is not adequate .2. Needs grammatical revision3.In discussion of fig 1 unit of haemoglobin to be mentioned4. As per the inclusion criteria clarify the correlation between pH and marriage5. Sample size is not adequate to derive any conclusion from this research work .6. Mention how is the study beneficial to the society .7. Discussion is not sufficient to conclude the findings .	
Minor REVISION comments		
Optional/General comments	<p>7 This manuscript does not provide substantial information . I suggest to increase the sample size ,reanalyse and rewrite it upto acceptable standard .</p>
