[Review Form 1.6](#)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p>	<p>ABSTRACT: Author(s) should check the spelling of <i>Azadirachta indica</i> in the abstract and effect the corrections accordingly. Also, there are few typographical errors in the abstract</p> <p>INTRODUCTION: A little more text should be added here. Check for spellings</p> <p>HOME REMEDIES: Author(s) should make reference to table 1 before presenting it, e.g., 'as shown in table 1'. Author(s) should crosscheck line by line for spellings, typographical and grammatical errors.</p> <p>BOTANICAL DESCRIPTION: I strongly suggest that this subheading be removed and the text under it should be added to the text under the subheading titled, 'Geographical Description' because the write-up is all about geographical description.</p> <p>TAXONOMY OF NEEM PLANT: In the classification presented under this heading, Genus is just <i>Azadirachta</i> but not <i>Azadirachta indica</i>. Class should be added to the classification Also, Species - <i>Azadirachta indica</i> should be added In addition, a little explanation on the classification should be provided</p> <p>MORPHOLOGY This heading should be Morphological Description of <i>Azadirachta indica</i></p> <p>GEOGRAPHICAL DESCRIPTION Author(s) should make reference to Figure 1 before presenting it, e.g., 'as shown in Figure 1'.</p> <p>PARTS OF NEEM PLANT This heading should be removed and the texts under the heading should be taken to Morphology Section. Author(s) should make reference to Figure 2 before presenting it, e.g., 'as shown in Figure 2'. Also, Author(s) should make reference to tables 2 & 3 before presenting them. In addition, a text should be written before the presentation of the tables.</p> <p>CONCLUSION Author(s) should crosscheck line by line for spellings, typographical and grammatical errors.</p>	
<p>Minor REVISION comments</p>		

Review Form 1.6

Optional/General comments	<p>This is a review work but the research is so scanty. I feel the author(s) should carry out more research to make the work more presentable or the research work should be published as a mini-review.</p> <p>Secondly, the authors mentioned in the abstract that the research will include Adverse Effects and Future Advancement of the Neem plant but there is no section for this in the main text. Authors should add these to the research work.</p>
