

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77576
Title of the Manuscript:	A REVIEW ON THERAPEUTIC APPLICATION OF CRISPR/Cas9 FOR HIV
Type of the Article	Review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Please add brief methods how to obtain the literature. Please re-draw the pictures or provide the permit. Please provide the figure/graph to show the application of CRISPR/Cas9 for HIV</p>	
Minor REVISION comments	<p>Please fix the abundance of typos and write gene in italic.</p> <p>The authors could provide the efficacy of CRISPR/Cas for each target from other studies, and comparing the efficacy obtained and the methods were used.</p> <p>Please provide the reference for "We then focused on improving the Cas12a system by optimizing the statement of crRNA. Our results exhibit that small RNAs with a precise 5' end can be proficiently produced with the help of specific nucleotides. The results provided insights into how to improve the proficiency of CRISPR-Cas12a-based gene editing. They also permitted us to extend the duration of HIV inhibition experiments".</p>	
Optional/General comments	<p>The authors wrote a very nice manuscript to summarized the application of CRISPR/Cas on HIV. However, to make it easier to follow, the authors can provide some figure/graph before or after the text.</p>
