

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77733
Title of the Manuscript:	The Outpatient Prescribing Pattern of Norethisterone in Al-Kharj
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good write-up. The period of study is short thus limited data available. The retrospective study has limited comparison compared to other drugs in the same disease but since the aim of study is only to investigate the pattern of prescription it should not be an issue. Perhaps a further study later can be made to compare the duration of prescription, the type of drugs, and the condition it is being used for with the efficacy, however that may require some time and extensive data. Otherwise a good study.	
Minor REVISION comments	Some grammatical errors have been fixed. Capitalization on some words and others.	
Optional/General comments	Suggest for further study on this topic.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
