PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract must not include the history. PLZ, mention the problem and how can solve it. Write the full name with the first abbreviation. The introduction section must be revised with updated medical usage of Pterocarpus santalinus What is the number of technical replicates per biological sample? The obtained results showed the anti-inflammatory activity of Pterocarpus santalinus. However, the discussion section did not give any hypotheses to explain these results. The discussion should be rewritten and focus on your work and relative ones only	
Minor REVISION comments	Overall, English is understandable, but there are grammar issues and inappropriate use of words	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
