

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77794
Title of the Manuscript:	ANTI-INFLAMMATORY ACTIVITY OF BOERHAVIA DIFFUSA ZINC OXIDE NANOPARTICLE
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> Is an indirect anti-inflammatory study in vitro It is necessary to represent in a more detailed way the application of zinc oxide in the process, how does the interaction between the Boerhavia diffusa extract occur with this matrix? There may be an error in the synthesis of nanoparticles, copper is included, is it copper or zinc? The conditions of the spectrophotometric analysis (wavelength, compounds that generate the reading signals, etc.) must be included, although working with validated methods it is necessary to explain what the inhibition percentage means, type of interferences must be included 	
Minor REVISION comments	Include a lot of irrelevant material in the introduction, I recommend citing background directly related to the study	
Optional/General comments	Although it is a short article, it is a work of great interest for natural products applied to traditional medicine	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
