PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	A general review of the whole manuscript is recommended.	
Minor REVISION comments		
Optional/General comments	<p>Why is the abstract written in sub-sections? The abstract should be one paragraph, subject to the journal style. PTEROCARPUS SANTA in the abstract should be written in italics. The English is poor, likewise the punctuation. Square bracket is recommended for references. What is the concentration of the selenium used as a precursor? What do you mean by selenium extract? Always separate values from units. Could you differentiate between toxicity and cytotoxicity? Did this research entail toxicity assay or cytotoxicity assay? All botanical names should be written in italics. The in-text references are poorly written. Check the journal guidelines for correction. This study is a toxicity assay. The author should change the topic to toxicity and no cytotoxicity. No part of the research contains a cytotoxicity study.</p>	

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
