

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_77867
Title of the Manuscript:	PRODUCTION OF PROTEASE ENZYME AND ANTIMICROBIAL ACTIVITIES FROM MARINE ACTINOBACTERIUM OF STREPTOMYCES SP.
Type of the Article	Original research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Organisms names were not written in italics. 2. More relevant citations could be added in introduction section 3. Neither table nor the figures are mentioned in results and discussions. 4. Results and discussion section need to be expanded with more discussion about the results. 5. Data is missing in several places in results and discussion section. 6. Pictures/graphs of enzymatic activity results from Muller Hinton agar plate can be either added to manuscript or provided as supplemental figures. 7. More information needs to be added to legends of Figure 1 and 2. 8. Genus and species names need to italicized in table 1 and 2. 9. While writing the more than few citations, they need to be under the same bracket and separated by a comma. These corrections need to be done in several places in the manuscript. 10. Appendix I is missing in the manuscript 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Adding TLC plate pictures would make manuscript better. 2. Citations on several occasions have a different font than the main manuscript. This needs to be fixed. 	
Optional/General comments	<p>Even though, authors have conducted several experiments to characterize the novel organism and the protease enzyme. They need to add more figures and tables to the manuscript to make it more informative.</p>
